

## **PROOM Sync – Installation Guide**

- Preparing the installation
- Update instructions
- Please note

## Preparing the installation

Before applying the PROOM Sync update, please uninstall the existing PROOM Sync installation. To do so, please go to Start, Control Panel, All Control Panel Items, Programs and Features and uninstall PROOM Sync.

## Update Instructions

PROOM Sync is available for Windows XP, Windows 7, and Windows 8 32-bit and 64-bit systems. To find out which operating system your computer is running, go to Start, Control Panel, All Control Panel Items, System. Now download PROOM Sync.

Control Panel +	All Control Panel Items + System			
Control Panel Home	View basic information about your computer Windows edition		0	Open PROOM Sync folder Open PROOM website

The installation wizard will be launched. Once you have completed the installation process, the PROOM Sync setup wizard will be launched. You can always change your settings later in PROOM Sync.

## **Please note**

PROOM Sync will automatically check for new versions of the software on startup. You can install the new version directly from within PROOM Sync.
